

R. Jack Cagle
Commissioner

HARRIS COUNTY PRECINCT 4

4 Ps OF DEBRIS REMOVAL

Harris County Precinct 4's Community Assistance Department: 281-353-8424

Harris County Debris Removal Hotline: 713-274-3880

PATIENCE

There are more than **1.2 MILLION RESIDENTS** in Precinct 4. Debris removal will take months, so please bear with us during recovery time.

PLACEMENT

Place items in a pile in the public right-of-way within 15 feet of the curb. Do not place debris in the street, near fire hydrants, gas meters, mailboxes, or in roadways or ditches. Do not put hazardous material in the debris pile.

PARKING

Please **do not** leave cars in the street during debris removal. There must be enough room in the street for our large gradalls and dump trucks to have easy passage. Cars blocking piles will prevent debris removal.

PERSONAL RESPONSIBILITY

The County is working through the State and Federal process to have temporary staging areas for individuals who desire to remove their debris piles to be able to self-help. Further information on self-help locations will be made available soon.
