DETAILS TO KNOW:

Online certifications are processed via eCertify through August 4. Beginning August 5 the system is being upgraded to essCert.

Appointments should be made for any Certificate of Origin stamping in order to ensure the proper staff members are available.

Notarize any documents being stamped in person. This is NOT required for online certification processing unless the respective country or consulate state otherwise.

Clearly state that the items being shipped were Made in the US or Materially impacted in the US.
